PROFESSIONAL SUMMARY

Motivated cybersecurity learner with hands-on experience in system hardening, network security testing, awareness simulations, and Linux-based automation. Proficient in Kali Linux, Nmap, Python, and Wireshark. Strong understanding of cyber threats, network protocols, and secure practices. Earned certifications from Google and Cisco. Continuously building labs, documenting learning, and developing tools for real-world scenarios.

TECHNICAL SKILLS

- Operating Systems: Kali Linux, Ubuntu
- Programming/Scripting: Python, Bash
- Security Tools: Nmap, Wireshark, Aircrack-ng, OpenVAS, Netdiscover
- Networking: TCP/IP, Port Scanning, Network Diagnostics
- Other: Linux CLI, GitHub, Shell Scripting

PROJECTS

- **Wireless Network Audit (Lab Simulation)** – Demonstrated weaknesses in WPA2-configured networks within a safe lab environment.
- **Password Strength Testing Tool** – Created a Python-based script to test weak credentials using custom wordlists.
- **Email Threat Awareness Demo** – Designed mock email simulations for user training on phishing awareness.
- **Automated Network Scanner** – Developed a Bash script integrating Nmap to streamline system scans and log vulnerabilities efficiently.
